bottom fixture, bottom fixture, guide track moved face fixture, indented guide track out as far as possible indented guide track awning retracted, all round cover protection 3 view of the bogey on the front profile 4 maintenance opening in the cassette concealed gutter with water drainage examples of its use on various 5 holes to the side conservatory shapes

Above glass awning _____ markilux 8850

Produ	uct Characteristics
Descript	ion
	exterior awning for bevel-edged conservatories
Special f	eatures
	• the cover runs in and out above the guide tracks – the cover appearance from the exterior is ideal and gives more flexibility when fitting
	• guide tracks can be indented up to 100cm – if the system is asymmetrical the difference left and right may not exceed 40 cm
	 the guide tracks can overrun the last bracket position by up to 100 giving more sun protection fully encompassing cassette that protects the cover perfectly
	• tried-and-tested tensioning system with drive belts and integrated gas pistons – delivers optimum cover tension – in any phase of extension
	• optional wall sealing profile – to cover the gap between wall and awning cassette
Dimensi	ons
	 single unit: 80-650 cm in width, maximum extension 500 cm (depending on the width) maximum dimensions width × extension: 500 × 500 cm / 600 × 450 cm / 650 × 400 cm intermediate sizes are available
Roller tu	be and lateral bearings
noner tu	 round roller tube Ø 95 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths the roller tube bearing is made of die-cast aluminium
A	
Awning	extruded aluminium, in façade quality, powder coated
	• cassette profile in two pieces, round, Ø 187 mm
	• guide tracks angular, width × height 60 mm × 70 mm
	• front profile rounded at the front, depth × height 150 mm × 70 mm
End caps	
	the cassette end caps made of die-cast aluminium, powder coated
	• the top maintenance cover is made of high-quality plastic, powder coated
	• the front profile end caps are made of high-quality plastic, powder coated
	• the front profile end caps are made of high-quality plastic, powder coated
Fixture b	prackets
	extruded aluminium, powder coated
	cassette brackets: bottom fixture, face fixture
	• guide track brackets: raised bottom fixture, flat track bracket
	• standard bracket heights: 20 mm / 105 mm (bespoke heights can be ordered)
	other accessories are available

dimensions in cm

1) = additional guide track overhang of 90 mm

H = extension

General note

In the case of larger extensions, the cover may sag slightly when the awning is being extended or retracted. In windy or wet conditions and a cover area more than 16 m^2 , may lead to the cover coming into contact with the conservatory roof.

Versions that can be ordered

Option 1: With guide tracks indented. Both the R and L measurements must be smaller than the awning fixture width. In the case of asymmetrical units the difference between the L and R dimensions may not exceed 400 mm. The tolerance in the fixture width is +5/-10 mm.

Option 2: With the tracks as far out as possible. In this case, the L and R dimensions are 50 mm.
